Simple

Recover

It could be simple
It could be simpleYou shut your eyes so tight to slow down time
Days and states go by and it keeps onIt could be simple but I can't even see the end
There is no, there is no light at allI wish that I could say 'I'm fighting the good fight
I've tried the honest way, it just doesn't feel right"It could be simple, but I can't even see the end
There is no, there is no light at allHow can you leave when you can't find the door
What's the strategy here, what are you waiting for?
What are you waiting for?It could be simple
It could be simple
It could be simple
There is no, there is no light at all
There is no, there is no light at all
