

Fall Back In Love

Mikey Wax

I can give you my heart for a little
we don't need to be stuck it's not a riddle
if we both give a bit meet in the middle
everything will be alright and i will be yours if you'll be mine
oh we don't need a sign don't need to scribble out our names in our heart
like we did back at the start
just wanna get away, wanna hear you say we could fall back in love tonight
we could fall back in love you know the feeling is right
we could fall back in love tonight
no there aint no other one so baby lets fall back in love i could write you a song if you miss me
we could sail the Nile or Mississippi
you could dress like a hipster or a hippie
i don't care as long as you're mine and i will be yours so please be kind
don't, you don't need to run up and kiss me
just pretend for the day that you never went away
put your arms out, let me hear you say that we could fall back in love tonight
we could fall back in love you know the feeling is right
we could fall back in love tonight
we could fall back in love you know there's no better time
we could still be as happy as we were in the beginning
oh lets give it a try
why don't we fall back in love tonight
no there aint no other one so baby lets fall back in love i don't wanna take a break
let me take you on a date
and start all over again
no i don't wanna take a break
so please don't make me wait
i'll give you all that i have why don't we fall back in love tonight
we could fall back in love you know the feeling is right
we could fall back in love tonight
with the rooftop down and the stars shining bright
we could fall back in love tonight
we could fall back in love you know the feeling is right
oh don't you know you'll always be mine
we've been hiding in the dark but now we're seeing the light
we could still be as happy as we were in the beginning
oh lets give it a try
why don't we fall back in love tonight
no there aint no other one

so baby lets fall back in love
baby lets fall in loveand i can still make you as happy as i did when you met me, oh lets give it a try
why dont we fall back in love tonight
cause there aint no other one, so baby lets fall
yeah you're still the only one, so baby lets fall back in love
baby lets fall back in love
