Problems

Nivea

I won't take no lies, hanging out all night
The gig is up, enough, it's enough
You're wrong, dead wrong, won't take no more
'Cause I see your game and dumb's not my name
Pack your bags, call you a cab
No more laughs 'cause I'm not the one
That you're gonna play on
Move along, sing a song
You give me problems, problems
Too many problems
Don't want no problems, problems
No time to solve them
You give me problems, problems
Too many problems
Don't want no problems, problems
No time to solve them
Got love for you but I can't stand you
I page you, you won't call, what's a 2-way for
Strike one, strike two, strike three, no more me
'Cause I see the game and dumb's not my name
Pack your bags, call you a cab
No more laughs 'cause I'm not the one
That you're gonna play on
Move along, sing a song
You give me problems, problems
Too many problems
Don't want no problems, problems
No time to solve them
You give me problems, problems
Too many problems
Don't want no problems, problems
No time to solve them
We can do this anyway that
You want 'cause I don't care
It's no problem and I'm not the one
We can do this anyway that
You want 'cause I don't care
It's no problem and I'm not the one
Pack your bags, call you a cab

No more laughs 'cause I'm not the one
That you're gonna play on
Move along, sing a song
You give me problems, problems
Too many problems
Don't want no problems, problems
No time to solve them
You give me problems, problems
Too many problems
Don't want no problems, problems
No time to solve them
It's plain to see, you can't have me
'Cause you gon' be a playa for life
It's plain to see, you can't have me
'Cause you gon' be a playa for life
It's plain to see, you can't have me
'Cause you gon' be a playa for life
It's plain to see, you can't have me
'Cause you gon' be a playa for life
You give me problems, problems
Too many problems
Don't want no problems, problems
No time to solve them
You give me problems, problems
Too many problems
