

# Broken Skin

Nitin Sawhney

Today at 15.45 hours  
India conducted 3 underground nuclear tests  
In the bogram range Hope falls softly from your hands  
Dreams burn deap beneath the land  
Time casts shadows overall  
Sweating fever, rain or river  
Brushing winds beneath your call Broken skin, distant fear  
Shattered worlds of endless tears  
Hidden fires, distant lies  
Burried hopes beneath the cries  
Broken skin, distant fears  
Silent lips, so far, so near Silence, it is every hope apart  
Two flames burn deep beneath one heart  
Teardrops flow faster with the tide  
Raging over calmer waters  
As the timeless land divides Broken skin, distant fear  
Shattered worlds of endless tears  
Hidden fires, distant lies  
Burried hopes beneath the cries  
Broken skin, distant fears  
Silent lips, so far, so near Broken, distant, shattered  
Hidden, distant, burried  
Broken, distant, silent Cold games repeat on eastern shores  
Strong winds blow over colder wars  
Proud lips stay silent in the rain  
There are half a million voices in the song without a name Broken, distant, shattered  
Hidden, distant, burried  
Broken, distant, silent Shattered  
Hidden, distant, burried  
Broken, distant, silent (so far so close)  
Shattered  
(there are half a million voices)  
Distant  
Shattered  
Distant  
Shattered  
(there are half a million voices) Just 5 miles from indias nuclear test site  
Children play in the shade of the village water tank

Here in the rajahstan desert people say they're proud their country showed their nuclear capability
