Kiss You Up

Miranda Cosgrove

Oh-oh, oh-oh, oh-oh
Oh-oh, oh-oh, oh-ohYou just have to say what you need
And I'll hear you out
You don't have to hang in a scene
'Cause I'll be your crowd
I'm on your side, hold you up
When you're falling downAnytime that you want me around
I'll be there at the speed of sound
Anytime that you want me around
I'm there, oh-oh, oh-ohKiss you up, oh-oh, oh-oh, oh-oh
When you're down, oh-oh, oh-oh, oh-oh
Make you right through the night
If you need a little love
I'll kiss you upDon't have to change 'cause I love you
The way that you are
No matter how dark it may be
I still think you're a star
And if you break, I will come
And mend you, sweetheartAnytime that you want me around
I'll be there at the speed of sound
Anytime that you want me around
I'm there, oh-oh, oh-ohKiss you up, oh-oh, oh-oh, oh-oh
When you're down, oh-oh, oh-oh, oh-oh
Make you right through the night
If you need a little love
I'll kiss you upKnow how you're feeling
Don't need a reason
To reveal it
Remember to breathe in
Never stop believing
You're extra ordinaryOh-oh, oh-oh, oh-oh, kiss you up
When you're downKiss you up, oh-oh, oh-oh, oh-oh
When you're down, oh-oh, oh-oh, oh-oh
Make you right through the night
If you need a little love
I'll kiss you upMake you right through the night
If you need a little love
I'll kiss you up
