Compromise

Saga

Last time you dramatized
I knew it was your job
And you really did it well
Next time you might criticizeI get so confused
What'll it be this time?Compromise
CompromiseNow reflect but not too long
Those presses are waiting
Can't miss that deadline
Even at the best of timesYou can't hope to please us all
So what'll it be this time?Compromise
CompromiseNow, reflect, but not too long
Reload, then hide again
Each time a different view
How's your perspective?Bending a little line
You could use a very
Different kind of phrasing
What'll it be this time?Compromise
CompromiseNow reflect but not too long
