What If

112

(What if)
What if I never slept around, never cheated on you, girl?
(What if)
What if I didn't break your heart and never ever ruined your world?
(What if)
What if I always was a real man
And faced you face to face told you the truth?
(What if)
What if I never ever tripped when you said
You wanted to go out and hang with your crew?(What if)
What if I was a different man than I was?
(What if)
What if I wasn't so selfish
And took one second just to listen to you?
(What if)
What if I was alone o my own?
(What if)
What if I wasn't so damn controlling
You would still be right here?We would still be together, be together, be together right now
We would still be together, be together, be together right now
We would still be together, be together, be together right now
We would still be together, we would still be together girl(What if)
What if I didn't have lame excuses for all the stuff that I do?
(What if)
What if I had no baby mommas
No damn drama and I never brought it around you?
(What if)
What if I never called you out your name
And treated you like you were my queen?
(What if)
What if I woke up from this madness and this shit was just a dream?(What if)
What if I really went to work and didn't spend the whole day creeping?
(What if)
What if you were at the beauty shop
And you didn't hear about me last weekend?
(What if)
What if you ever asked me a question
And I didn't st-st-stutter all of the time?
(What if)

What if I wasn't so damn controlling?We would still be together, be together, be together right now
We would still be together, be together, be together right now
We would still be together, be together, be together right now
We would still be together, we would still be together girl(What if)
What if I never said I do when I knew that I wasn't ready for you?
(What if)
What if I gave a tenth to my church and didn't drink it up in VIP?
(What if)
What if, what, what if, what if, what, what if
(What if)
What if, what if, what if, what if, what if, if I didn't? We would stillWe would still be together, be together, be together right now
We would still be together, be together, be together right now
We would still be together, be together, be together right now
We would still be together, we would still be together girlWe would still be together, be together, be together right now
We would still be together, be together, be together right now
We would still be together, be together, be together right now
We would still be together, we would still be together girlWould we still be together girl?
