Strange Love

Phil Spector

You're likin' what I say
I guess I was afraid you'd run away now
I'm loyal like a stray
I'm never gonna turn and run away now
A passion junkie's fix is never satisfied
You're never gonna break his heart
So have some fun, abuse it
Strange love
You're a strange one
You washed away your yesterday
I saw you cleanin' up a bucket full of doubts
And a little bit of power grabbin' when it's all done set
What are you gonna do with you?
A passion junkie's dog can't keep its collar on
He's never gonna break so go ahead and shake him

Strange love
Breaks us down
Strange love
Though nothing's gonna break us now
And you're actin' surprised
Oh, all of the time
Into your charms slips my life
Strange love
Breaks us down
Strange love
Though nothing's gonna break us now
Strange love
You're a strange one
Strange love
You're a strange one
