# Ride of Your Life

## Dutch Riddim Combo featuring Bodea

Fall into a carousel of unimagined flight
Ripping round the corners shrieking, sometimes peeking light
Drown yourselves in lakes of volume
Drown yourselves in the sound
Turn it up to match your voyage
Ten's restricting, eleven takes you on a rideThe ride of your life
On the ride
The ride of your lifeI always ask for more than is needed
I'm reaching down while I'm high
Puncture the air with verbal affairs
A chance to be smooth on the climb
I let it fly like a kite in the warm winded sky
Not sure how to land
But when I do hope my tunes are still true
May they scream loud to you
Wanna take you all on a rideThe ride of your life
On a ride
The ride of your life
The ride of your life
Of your lifePickina pickina sound, make you all just crowd around
Bout it bout it loud, got to be about it loud
Like it to like it to slam, like it like it to slam worldwide
Wanna ride? Wanna ride?
Ride your diggin it down, ride your diggin it down, supersound
Tickety, tickety bomb, tickety tickety bomb sing along
Take it take it away, take it take it away, worldwide
Wanna ride? Wanna ride?
