Raw & Uncut

Beanie Sigel

What?
Spit what man?
Man I don't know where that shit be comin' from dawg for real
Ain't no fuckin' rapper man
16
I don't know Jay
If you don't believe me then
Who you know who can spit till he pop the real
Never thought about rappin' till he coped his deal
I really held down my block for real
All I do is crack rock and how to pop the steel
How to box niggas in where they can barely move
Roll wit straight thugs never scary dudes
Keep bodies on them guns and we share our tools
Deuce 1 ball for Philly like Larry Hughes
Keep the desert eagle wit the beam tucked by the scrotum
Get locked in jail run a block sell open
Mind went to jail I get dro el's roll 'em
Bookie nigga clippin' niggas like L Odom
I got dough I choose not to spend it
Catch me in Avis and Budget in somethin' rented
Long as the windows tented
(I don't give a fuck)
I'm in it
I was holdin' wit music rollin' in the gold infinite
We keep it raw and uncut for all the niggas and hoes
The first time you sniff it, it might hurt your nose
But only the strong survive and that's how life goes
But nigga this is the life you choose ya heard me
We keep it raw and uncut for all the niggas and hoes
The first time you sniff it, it might hurt your nose
But only the strong survive and that's how life goes
That's just the life we choose
We don't complain thats just how it be
I shuffle back against the ropes like Ali
I hustle through the alley through the valley of the death
And I never play fair in the eyes of the ref
Fuck it give me a tech and I'll come back right
Can't go inside the game ain't got enough strikes

Come at me wrong I'll come at you the same
Come at me sideways I'll come wit your brains
Come at me direct and I'll come back wit names
I'm hot like boilin' water I'll come back wit cane
Keep it raw and uncut for all the bitches and hoes
And the first time you sniff it, it might hurt your nose
But only the strong survive and thats how life goes
I know I'm outta control
Me and Jay same track you gotta be kiddin'
It's like that nigga Jordan I'm Scottie Pippen
It's like magic worthy, parish bird and stockten Malone shit
Who gonna stop and hold this
Game like doc and moses
Full court press and the rock control this
We keep it raw and uncut for all the niggas and hoes
The first time you sniff it, it might hurt your nose
But only the strong survive and that's how life goes
That's just the life we choose
We keep it raw and uncut for all the niggas and hoes
The first time you sniff it, it might hurt your nose
But only the strong survive and that's how life goes
But nigga this is the life you choose ya heard me
I use to catch that train and snatch that chain
Do anything for a game to catch some change
Whether it was shootin' the dice or clappin' the gauge
I was a nigga wit a strong arm like Satchel Paige
I'm tellin' you dawg I'm the wrong one to fuck wit at all
I'm the type that'll set a broad day in the mall
Up in glocks wit body shops takin' a fall
Fuck you cock swats feds and all
No no no homie I didn't say I could hit you wit dirty o's
But I said if I can supply 30 of those
Ding ding homie come holla at the kingpin'
The Gods are reapal the carters is leather
Hang wit psychotic people who like so fuck niggas
Came up singin' that God was evils
Slang heron like revolvin' a eagle
And I blew to the point I bought cars for the people
We keep it raw and uncut for all the niggas and hoes
And the first time you sniff it, it might hurt your nose
But only the strong survive and that's how life goes
But nigga this is the life you choose ya heard me
We keep it raw and uncut for all the niggas and hoes
The first time you sniff it, it might hurt your nose
But only the strong survive and that's how life goes

That's just the life we choose
Sigel Sigel y'all
Jigga jigga y'all
What?
Nah homie I can't take your take demo
I don't got no pockets
What?
Nah man
