# Tear

## Avus

The lights came on fast, lost in motor crash
Gone in a flash unreal, but you knew all along
You laugh the light, I sing the songs
To watch you numbI saw you there, you were on your way
You held the rain and for the first time
Heaven seemed insane 'cause heaven is to blame
For takin' you awayDo you know the way that I can?
Do you know the way that I can't lose?
Do you know the things that I can?
Do you know the things that I can do?Where is your heart? Where is your heart gone to?
Tear me apart, tear me apart from you
You laugh the light, I cry the wound
In gray afternoonsI saw you there, you were on your way
You kissed me, oh, for the first time
Heaven seemed insane for taking you away
'Cause heaven is to blame for taking you awayThe lights came to pass
Dead opera motor crash
Gone in a flash unreal
Nitrous overcastDo you know the way that I can?
Do you know the way that I can't choose?
Do you know the things that I can?
Do you know the things that I can't lose?Tear me apart
Tear me apart from you
Where is your heart?
Where has your heart run to?
