

Headlights (feat. Ilsey)

Robin Schulz

Oh, I know why you chasing all the headlights
Oh, 'cause you always tryna get ahead of light

Baby when you go

You know I'll be waiting on the other side

And I'm always cold

But if you stay then I could keep you warm at nightDon't be a fool for the city nights

I know it's cool but it's only light

Baby with you I can never lie

Don't go chasing all the headlightsOh, I could feel the beating of your heartache drum

Oh, don't know if I'm dreaming or if you have gone

Every time you go

Hits me like a bullet from a broken gun

Yeah I know it's cold

But if you stay then Then I could give you all my loveOh, and don't be a fool for the city nights

I know it's cool but it's only light

Baby with you I can never lie

So don't go chasing all the headlightsooh, ooh, ooh

ooh, ooh, ooh

ooh, ooh, ooh

ooh, ooh, oohOh and don't be a fool for the city lights

I know it's cool but it's only light

Baby with you I can never lie

So don't go chasing all the headlights
