Thousand Miles Away

Komposti Sound

You are thousand miles away
I miss you darling
You are thousand miles away
Sure enough I need you honey
What's mine, baby is yours
I want you to have it, honey
But you are thousand miles away
I can't give it to you honey
What's your's I know it's mine
I want my share, give it to me now
I'm a thousand miles away
I can't get it from you, honey

Lord, I'm suffering now, hey
Thousand miles away, one thousand
Lord, let me hear from you, honey
What's mine, baby, is yours
I want you to get it baby
But you're thousand miles away, one thousand
I can't give it to you honey
Lord, you got me suffering, baby
Big binoculars can't see you honey
I don't wanna hear from you
Don't call me on the phone, baby
I love you, I wanna see you girl
