Boomerang

Vega 4

I'm not the man I wanted to be
I'm just not that strong
I can't think of anything
That's not come undone

You came in our new bed
I loved to see you lost
Your eyes were closed

Turn on all the lights
Make it louder
Shock this heart to life
Burst it open

Shout out secrets, shout
Shout out louder
Love like the first time
Start from nothing

It's not just that I wanted to be
The one that was strong
The one that could pull us up off
Of our knees

We lay in our new bed
And I could hear you breathe
Your eyes were closed
Keep your eyes closed
I love it when you're lost

Turn on all the lights
Make it louder
Shock this heart to life
Burst it open

Shout out secrets, shout
Shout out louder
Love like the first time
Start from nothing
