Love Has Got the Power

Bosson

Your love has got the power
Your love has got the power
And I thank you, haeya, ayiyiyaYour love has got the power
Your love has got the power
And I thank you, haeya, ayiyiyaSpend my evenings alone with the memories that I had
Try to figure it out how things can happen like that
I will never forget all the times that we hadI'm trying hard to go on with my life throughout the day
I believe that you would have been wanting me to stay
If I just could have shown how I feel deep inside, oh, haYour love has got the power
'Cause your love has got the power, baby
Your love has got the power
'Cause your love has got the power, babySometimes it's hard to achieve all the goals that you have
You only know what you feel in life and she's no longer there
Everything's got a reason and it's time to be fairI wanna thank you for dealing with me the way you did
You got me understand that some things meant to be
A lesson in love isn't all that it seems, oh, yeahYour love has got the power
'Cause your love has got the power, baby
Your love has got the power
'Cause your love has got the power, babyYour love, yeah, your love, yeah
Give it all up for your love
Your love, yeah, your love, yeah
Give it all up for your loveI'm dreaming we're together that we're to be
The world is open wide and yet you're holding onto me
I'm giving up my live and the feeling is here to stayYour love has got the power
'Cause your love has got the power, baby
Your love has got the power
'Cause your love has got the power, baby
