T.E.F.

You've been starrin' in your own life (eeeh eh)
But that was just a preview (eeeeh)
You're bringing on the sunshine now
You're shining like a diamond nowYo, this is what you wanted
Some would even die for
Let 'em know it's heart-felt
This is what you cry for
Before you couldn't dream of it
Now you're feeling closer
Me; I'm just a ghetto kid
Now I'm on the poster
Can't explain the feelin'
Heartbeat's racin'
I'm dealin' with emotions
Excitement's amazin'
Tell them; we've been ever so patient
And now it's in sight so we're reachin'(And nooow)
You're lookin' down from the bird's eye
(You shiiine)
You shine on like a floodlight
Show them this ain't nothing like a mistake
It's a risk that we all take(And nooow)
You're lookin' down from the bird's eye
(You shiiine)
You shine on like a floodlight
Show them right now's perfect timin'
Clocks just don't slow downYou've been starrin' in your own life (eeeh eh)
But that was just a preview (eeeeh)
The main doors are open now
The whole crowd's watching nowYou've been starrin' in your own life (eeeh eh)
But that was just a preview (eeeh)
You're bringing on the sunshine now
You're shining like a diamond nowYo, and it feels like a step away
Must be the only way
Yesterday was arm's reach
Now you're fingertips away
Following the right street
Pressure's on; more heat
Stay cool; don't freeze

Now we're at another day
Show dem we ain't gonna blow away da chance
Remember where we started from;
The roots, the plants
Treat it like it's final
Dat's why it's vital to focus
Don't even look away your glance(And nooow)
You're lookin' down from the bird's eye
(You shiiine)
You shine on like a floodlight
Show them this ain't nothing like a mistake
It's a risk that we all take(And nooow)
You're lookin' down from the bird's eye
(You shiiine)
You shine on like a floodlight
Show them right now's perfect timin'
Clocks just don't slow downYou've been starrin' in your own life (eeeh eh)
But that was just a preview (eeeh)
The main doors are open now
The whole crowd's watching nowYou've been starrin' in your own life (eeeh eh)
But that was just a preview (eeeh)
You're bringing on the sunshine now
You're shining like a diamond now(And nooow)
You're lookin' down from the bird's eye
(You shiiine)
You shine on like a floodlight
Show them this ain't nothing like a mistake
It's a risk that we all take(And nooow)
You're lookin' down from the bird's eye
(You shiiine)
You shine on like a floodlight
Show them right now's perfect timin'
Clocks just don't slow downYou've been starrin' in your own life (eeeh eh)
But that was just a preview (eeeh)
The main doors are open now
The whole crowd's watching nowYou've been starrin' in your own life (eeeh eh)
But that was just a preview (eeeh)
You're bringing on the sunshine now
You're shining like a diamond nowAnd now it all builds
Up to the point
We can see over the hills
You can play star
Lead role in the films
But don't stand still
'Cos you're shinin' like a diamond now
