stop staring

Tyrades

Baby, baby got so much on her mind
Let's just forget about last night
And press rewind
Press rewind
Don't stress
It's got nothing to do with you
It's just me
I need some time to recoupe
And break free from you
Girl
Stop staring
Stop staring
And go
Stop caring
Stop caring
And go
Stop staring
Oh stop staring
And go
Stop staring
Stop looking at me now
Go through it
I already told you
Let this sink in your head
There's no me and you
Me and you
I didn't expect to have to deal with all this
Believe me
It's not my loss or miss
loss or miss

Girl
Stop staring
Stop staring
And go
Stop caring
Stop caring
And go
Stop staring

Oh stop staring
And go
Stop staring
Stop looking at me now
What don't you get?
What don't you get?
Leave me alone
Leave me alone
What don't you get?
What don't you get?
Leave me alone
Leave me alone
Girl
Stop staring
Stop staring
And go
Stop caring
Stop caring
And go
Stop staring
Oh stop staring
And go
Stop staring
Stop looking at me now
