2 Face

Asian Dub Foundation

My ears are burning, my back has started to bleed
I've noticed you only contact me when I've got some weed
And when I'm in need to help you with something you need to do
I must have been a fool 'cause now I see the real youYou couldn't even look me in the eye
I knew something was wrong you can't justify, it's all lies
Telling me other's business and telling me how they be
Come to think about it, you could be doing it to meThe pieces of the puzzle are now fitting into place
I know what kind of person you are you're a disgrace
I don't hold a grudge even though what you did
I just can't trust you with absolutely anythingIf I see you it just hi and bye keep going my way
'Cause I've got things to do, I've got bills to pay
I've had enough of your two faced company
And that's the way it's going to be
My friend, welcome to realityRemember the times it was cold outside
Everyone said blurt but I said na come to mind
Hours and hours of blazin', feel fine
Did you think your parents would allow it at that timeI didn't think so well now you know how
It was growing up with ungrateful brothers about
It makes me wanna scream, it makes me wanna shout
Ask what I did for them and their mind blacks outDay by day pushin' me away others them a turn
Others stayed tried to relate
To make me see I was wrong no it's too late
Back biting, street fighting it the mess that was madeGreat, I spent half my life with you guys
Now you want to rush me in front of my mothers eyes
I don't know why you did it and you was high
Two face people die twice, no lieTo all them a boy them a liar, liar
With their mouths on fire, they say it's human nature
They are playing with lives, they slowly burning wire
You'd better be aware 'cause in the end you'll sufferTo all them a boy them a liar, liar
With their mouths on fire, they say it's human nature
They are playing with lives, they slowly burning wire
You'd better be aware 'cause in the end you'll suffer2 face, two bait when it's written on your face
Two fake, too straight when your out on the estate
After all the lies you've gone and spread about me
You put on your disguise and go on like we're sweetWho needs enemies when you've got brothers like these
They be smiling when they're with you
But you know it's full of cheese
Oh, please who else be trying to eat up our cake
Two, two, two you're 2 face'Cause they're the masters of deception

They wanna bring you down
Your phone keeps ringing taking you for a clown
Them threats keep coming make you wanna leave town
Not before you find out who's behind this showdownYour best friends been makin' others real mad
You're tellin' this dude everything and now it's real sad
He's rollin' with your enemies and now they seem glad
They know all they need and got their pen to the padSo why do they do what they do against you
Fake arsed brothers you're life they want to screw
It's true when I say all they want is attention
To satisfy their needs with no considerationTo all those people who've got more than one face
You better be on your defense 'cause now we're on the case
The mace that you sprayed has been cleared from my eyes
What comes around goes around you better realize2 face, two bait when it's written on your face
Two fake, too straight when your out on the estate
After all the lies you've gone and spread about me
You put on your disguise and go on like we're sweetWho needs enemies when you've got brothers like these
They be smiling when they're with you
But you know it's full of cheese
Oh, please who else be trying to eat up our cake
Two, two, two you're 2 face2 face, two bait when it's written on your face
Two fake, too straight when your out on the estate
After all the lies you've gone and spread about me
You put on your disguise and go on like we're sweetWho needs enemies when you've got brothers like these
They be smiling when they're with you
But you know it's full of cheese
Oh, please who else be trying to eat up our cake
Two, two, two you're 2 faceThey come down your home pretend to be your mate
But deep inside their souls it's just you that they hate
And whenever you were hungry you placed food on their plate
And any time they were in trouble, you always helped them escapeIndirect or direct they try to put you down
Low down, way down underground with no sound
And all the bullshit that they talk they can't just even hold down
With their mouth full of rubbish they try to spread around2 face two bait
Two straight, man, you're too fake
Every time we come around you know we penetrate
Any time you come around we must eliminate2 face two bait
Two straight, man, you're too fake
Every time we come around you know we penetrate
Any time you come around we must eliminate
