Lonely Man

The Lancastrians

It happened once before, it could happen again
Do you spend your life not trying anything?
It's turning you into what you don't want to be
A lonely man
You hide yourself away, you hide inside your head
Don't you know that life is never what you plan
I know what you've been through
But no one wants to see a lonely man, you'll be a lonely man
There's nothing wrong with you
That can't be fixed right here, you only have to want to
Nothing anyone can say to make you less scared but you know the truth
That you gotta do what you gotta do to make it through
So open up your eyes, please don't close your heart

You can restart the fire, all you need is the spark
After all you've been through
You still don't need to be a lonely man
Don't be the lonely
(Lonely man)
Don't be a lonely
(Lonely man)
Don't be a lonely man
(Lonely man)
Yeah, you know the truth
That you gotta do what you gotta do
You'll make it through
