I'm Not In Love

BBMak

Don't think you got me girl
Don't think you can tame me and change me
Don't think that it's all because of youJust because I don't run around
Just because we're forever together
Don't you think of a four letter word to useSo what if I just don't want anybody else but you
So what if you're all that I ever really wanna do
I know what you're thinkin' but that doesn't make it trueBelieve me baby, I'm not in love, no not at all
What makes you think you made me fall
I slip but no, I'm not in loveWhat if I just can't sleep at night?
I see your face in the starry skies
So high above, girl I'm not in loveDon't think that you got it made
And don't think it's so easy to keep me
Never know it could all just fade awaySo what if I just don't want anybody else but you
So what if you're all that I ever really wanna do
I know what you're thinkin' but that doesn't make it trueBelieve me baby, I'm not in love, no not at all
What makes you think you made me fall
I slip but no, I'm not in loveWhat if I just can't sleep at night?
I see your face in the starry skies
So high above girl, I'm not in loveSo if my heart just skips a beat
What if I lose a little sleep, believe meI'm not in love, no not at all
What makes you think you made me fall
I slip but no, I'm not in loveWhat if I just can't sleep at night?
I see your face in the starry skies
The way you feel, it makes it right
But I'm not in loveI'm not in love, no not at all
What makes you think you made me fall
I slip but no, I'm not in loveWhat if I just can't sleep at night?
I see your face in the starry skies
The way you feel, it makes it right
I'm not in loveI'm not in love, I'm not in love
What makes you think you made me fall
I slip but no, I'm not in loveWhat if I just can't sleep at night?
I see your face in the starry skies
The way you feel, it makes it right
