Song For Her

Manu KatchÃ©

Dust off my heart
It's been on the shelf too long
I've found somebody
Who is worthy of my love
Seen a million faces
But in them I couldn't find
One that could make me right
More than a love some that you've heard
This is my special song for her
More than a love song's fancy words
This is my special song for her
Back in the game
Ain't gone warm that bench no more, no more
I always use to play to win
Now I ain't even keeping score
I've seen a million faces
And found one of a kind
One that could make me right

More than a love some that you've heard
This is my special song for her
More than a love song's fancy words
This is my special song for her
Cause she's never wrong, but never says she's right
Her love is perfectly imperfect
Just what I needed in my life
It's an amazing, crazy feeling when
Nothing in this universe that I want more
Than the love for her.
Dust off my heart
Now I know where I belong
Seen so many faces
Until her I couldn't find
One that could make me right
More than a love some that you've heard
This is my special song for her
More than a love song's fancy words
This is my special song for her
