Sono Luminus

Erasure

I never thought that I would reach you
Though I've been searching for, oh so many years
This place I am seems unfamiliar
But there's a light to break through all my fearsStill, time and time again
I'm looking for the love
The one that can inspireLift me higher, high as heaven can be
Sono luminus
Love is here, where it always will be
Deep inside of usI'm looking out into the distance
The sound of thunder is rolling in my head
The sky is stretching out before me
Thanks for today, everything is blessedSo, here we go again
Searching for the truth
Until the twelfth of neverLift me higher, high as heaven can be
Sono luminus
Love can move a mountain
Yes, there's nothing that it can't doLove is here where it always will be
Deep inside of us
Love will fill the darkness when you're goneLift me higher, high as heaven can be
Sono luminus
Love can move a mountain
Yes, there's nothing that it can't do
WoahLove can move a mountain
Yes, there's nothing that it can't do
Love will fill the darkness when you're goneLove can move a mountain
Yes, there's nothing that it can't do
Love will fill the darkness when you're gone
Love will fill the darkness when you're goneLift me higher, high as heaven can be
Sono luminus
Love can move a mountain
Yes, there's nothing that it can't doLove is here where it always will be
Sono luminus
Love can move a mountain
Yes, there's nothing that it can't do
Love will fill the darkness when you're goneLove can move a mountain
Yes, there's nothing that it can't do
Love will fill the darkness when you're gone
WoahI never thought that I would reach you
Feels like this road has been going on for miles

Don't have to write or even see you
'Cause there's a light, burning on the insideStill, time and time again
We're looking for the love
The one that can inspireLift me higher, high as heaven can be
Our love is super love, fly robin fly
Wherever you are, saint or sinner be strongSono luminus
Lift me higher, high as heaven can be
Our love is super love, burn baby burnSono luminus
Sono luminus
