Voodoo Economics

CF

You got the curtain call
Before your hands were tied into the ground
You got the kitchen hand job easily
You'll be king of this here town
We're never gonna let you down

You were pulling tips from nine till five
But that meant nothing without
Rhyme and Elijah round

So "Give them the kick" was what you said
Was a kiss to your bee stung lips
And the kiss to your bee stung lips
Was a kick to arithmetic

I"ll take voodoo economics
It's all about danger
You said take voodoo economics
It's all about danger
I want danger, are you in danger?

You got all happenstance and
Over it when I would drag you down
You're pulling faces all the time
They mean nothing
They mean nothing
They mean nothing

"Give them the kick" was what you said
"Just you hang up your hands and quit"
So I hang up my hands and quit
Like a kiss to your bee stung lips

I'll take voodoo economics
It's all about danger
'Cause you said voodoo economics
It's all about danger
I'm in danger, you're in danger
I want danger, I'm in danger

You lost the kitchen hand job
Before your head was thrown into the ground
You'll be king of this here town
It's been a little while and I know it
But you'll never, never, never, never ever
Never let me down and

"That's it" was what you said
"Just you hang up you hands and quit"
So I hang up my hands and quit
Like a kiss to your bee stung lips

I'll take voodoo economics
It's all about danger
You said take voodoo economics
Is all about danger
I'm in danger, I'm in danger
Uh huh and I want danger
I want danger

So I hang up my hands and quit
Like a kiss to your bee stung lips
And I hang up my hands and quit
Like a kiss to your bee stung lips

You lost the kitchen hand job
Before your head was thrown into the ground
