Paws

You're scared of history repeating on me,
Concious intent on destroying my life, alot can be done in one night,
So come on, you're bleeding blood from a stone
Completing nothing at all
We're all here reaping hell on Earth
Between a death and a burrBe what you want to be, don't be scare of being safe
When skulls colide and crack, there will be sweet releaseHyperhonesty is crippiling me,
Better to deal with the demons you knew,
Than with the demons you dont
Come on, we're all one of the same
Only in different ways
Dying to live for those that fall
Dying for nothing at allBe what you want to be, don't be scare of being safe
When skulls colide and crack, there will be sweet release
When you're so happy and there's no suffering
Take what you want from me
And if you wanna go back
Then its alright with me
