Something Beautiful

Sharon Doorson

like an ocean
I can feel you but you're far away
in motion
always one step ahead of me
this notion
that I'll catch you one day
keeps me going, falling, deeper into outer spacedeeper into outer space
deeper into outer space
deeper into outer spaceouter space, outer spaceif I could be there with you
cause you take me,
Oh you make me brand new
got a one way ticket for two
We're getting closer,
like a trip to the moon
to something beautifulto something beautiful
to something beautiful...I can see ya
and I caught you looking back at me
like I need you
smiling cause you're making it look so easy
I can't help it
when you sing to me sing to me
cause I'm falling for your melodycause I'm falling for your melody
cause I'm falling for your melody...melody, melodyif I could be there with you
cause you take me,
Oh you make me brand new
got a one way ticket for two
We're getting closer,
like a trip to the moon
to something beautifulto something beautiful
to something beautiful...
