Take It On Back

Chase Bryant

Take it on back take it on back
Take it on back to where the grass was greener

She was a south Georgia stunner
Hotter than hell in July
We tasted heaven that summer
Then said goodbye and I don't know why
â€˜cause we'd park down by the river
Steam up them windows real good
Wish I could go back and see her
You know i would lord if I could

Take it on back take it on back
Take it on back to where the grass was greener
Take it on back take it on back
Back to when she and me were true believers
In love and all the things that come with it
Moonshine kisses man I miss it
Take it on back take it on back
Back to the best i ever had
Take it on, (take it on, take it on) take it on back

Well I, wonder if she ever wonders
If I'm thinkinâ€™ â€˜bout her too
Cause I'm thinkinâ€™ I still love her
If she only knew all i wanna do (is)

Take it on back take it on back
Take it on back to where the grass was greener
Take it on back take it on back
Back to when she and me were true believers
In love and all the things that come with it
Moonshine kisses man I miss it
Take it on back take it on back
Back to the best I ever had
Take it on, (take it on, take it on) take it on back

Take it on back to the truck bed blanket
Holdinâ€™ that girl till the sun come up
Take it on back to our song and crank it

Turn it up loud I can see her now

Take it on back take it on back
Take it on back to where the grass was greener
Take it on back take it on back
Back to when she and me were true believers
In love and all the things that come with it
Moonshine kisses man I miss it
Take it on back take it on back
Back to the best I ever had
Take it on, (take it on, take it on) take it on back
