Anything for You

Kansas

I still believe in what you say
I still believe that it could work okay
But love is just another game you play
You'll never change your mindYou exist so free and clear
Let no one touch you, let no one near
I think you're just someone afraid of fear
Or what you just might findI can see them all lining up outside your front door
Filthy minds and terrible habits are interesting, sureO but look at me now
If I've changed tell me how
O I'd do anything for youI'm sick of fighting but I need you so
You tell me lies but I can't let go
I want to take you out but you say no
Think you're ashamed of meYou give me headaches O you got your gall
If it weren't for me you wouldn't have nothin' at all
I fell for you 'cause you were nice and tall
I liked what I could seeI could be the keeper of fortunes if I was inclined
Let me know that you're standing beside me, I'll give them a signO but look at me now
If I've changed tell me how
O I'd do anything for you, anythingI could lead an army to victory or win in a race
I could do it if only I knew that you'd save me a placeO but look at me now
If I've changed tell me how
O I'd do anything for you, yeah
