terminal

Solarscape

Spinning and whirling
Descending, unending
Light the halo
Watch the day glow
Spiral is viral
I'm seeing believing
Dig the feedback
Take another crack at it
Harder and harder
The hollow deceiver
Hit the noise box
Smash the ice box
Louder and louder
Forgetting the setting
Kill the digital
Beat the terminal
Go, take it slow
Let it go
Get down hard
Down, it's terminal
Sensing, commencing
The final dismantle
Your confusion
My illusion
Terminal heading
Advance to the hideout

Put the light out
Throw me down, throw me down
Harder and harder
The hollow deceiver
Hit the noise box
Smash the ice box
Louder and louder
Forgetting the setting
Kill the digital
Beat the terminal
Go, take it slow
Let it go

Get down hard
Down, it's terminal
Go, take it slow
Get down hard
It's terminal
Go, take it slow
Let it go
Get down hard
Down, it's terminal
Slow, go take it
Slow, go take it
Slow, go take it slow
