

I Really Want You Here Tonight

[Randy Meisner](#)

A. Brackett
I wrote a song about you comin' home
I wrote it especially for you
But singin' it to myself
It's just like everything else
And it's some kind of lonely without you
I keep my mind good and busy all day
But I can't stop thinkin' 'bout you in the nighttime
And just when I think I'm fine
You come crashin' through my mind
I guess I'll never really be without you
I really want you here tonight
Near me tonight
Makin' things so right
I really want you here tonight
Near me tonight
I wrote a song about you comin' home
I wrote it especially for you
But singin' it to myself
It's just like everything else
I guess I'll never really be without you
I really want you here tonight
Near me tonight
Makin' things so right
I really want you here tonight
Near me tonight
I really want you here tonight
Near me tonight
I really want you here tonight
Near me tonight
I really want you here tonight
Near me tonight
Don't you know you can make everything alright
I really want you here tonight
Near me tonight
Don't you know you can make everything alright...
