A Real Paradise

Beatsteaks

By all means necessary
I take the chance to move on
Call it a day and we're done
Whether it's death or glory
My mind is set on the sun
To tell me where I belongSetting on the sun
Where do I belongI wonder why
If there's a real paradise
I can see it in your eyes
That we can't compromise
Let your imagination rise
The world's a bigger size
I can see it in your eyes
Let's build a real paradiseIf you believe in magic
Relieve the thorn in your side
Give me what money can't buy
I need you more than ever
Whatever place you may hide
I keep my arms open wideSetting on the sun
Where do I belongI wonder why
If there's a real paradise
I can see it in your eyes
That we can't compromise
Let your imagination rise
The world's a bigger size
I can see it in your eyes
Let's build a real paradise
