Dare

Chronic Future

Mmm, mmm
What do they see, looking at you
Could they see a dare?
Dazzing eyes and wondering minds
Are hugging after you
As you standing there as he steps your way
Steps across the floor
Coming onto you, here is what you do
Do exactly what I say
Lasting lady, show me what they really want
Follow me
See what they really want nasty, nasty, nasty, nasty
And what they really need nasty, nasty, nasty, nasty
Now listen to me say it, "Nasty, nasty, nasty, nasty"
Now say it next to me, "Nasty, nasty, nasty, nasty"
Listen up boys, you should know
I don't believe you, well
How to own you, they'll control your thoughts
And lontour dreams
As you standing there as he steps your way
Steps across the floor
Coming onto you, here is what you do
Do exactly what I say
Lasting lady, show me what they really want
And follow me, my baby
See what they really want nasty, nasty, nasty, nasty
And what they really need nasty, nasty, nasty, nasty
So listen to me say it, "Nasty, nasty, nasty, nasty"
Now say it next to me, "Nasty, nasty, nasty, nasty"
Baby feels so good, you cant let go
Your body goes in overload
You cannot hide the way you feel, it makes you feel
It feels it feels to real
See what they really want nasty, nasty, nasty, nasty
And what they really need nasty, nasty, nasty, nasty
Now listen to me say it, "Nasty, nasty, nasty, nasty"
Now say it next to me, "Nasty, nasty, nasty, nasty"
Lasting lady, show me what they really want
And follow me my baby

Lasting lady, show me what they really want
And follow me
Lasting lady, show me what they really want
And follow me
Read on, come to me, if you really last
Let me know who can go if you want
Nasty, come on and say, "Nasty"
Nasty, come on say, "Nasty"
