

Pedestal

Van Hunt

The problem with love is
I don't have anything to go with it
So it just sits in my closet
With all the other empty promises But today, I've been put on a pedestal
From the height, I know you see something in me
But today, you're gonna let me fall
From the height 'cause you don't believe that we really
Could have it all
You don't believe that we could have it all
You don't believe that we could have it all
You don't believe that we could have it all
You don't believe, you don't believe Love is sweet
But made of a material that doesn't breathe
It just sticks to my body
Like a sick suffocation But today, I've been put on a pedestal
From the height, I know you see something in me
But today, you're gonna let me fall
'Cause you don't believe that we really
Could have it all
You don't believe that we could have it all
You don't believe that we could have it all
You don't believe that we could have it all
You don't believe, you don't believe
You don't believe that we could have it all
