

Heal

Flaw

I've contemplated someday,
Both times or?
Get by the awful feelings,
Captured by all the lies. Now I pray for the changes,
And I've been waiting for the day to come,
Locked up inside I can't describe it,
I can't believe that I'm the only one. Cause all we know,
Is the pain we feel,
It helps us grow,
Makes this life real,
But deep inside,
Those wounds will heal,
All those wounds will heal... Still tied up by the greeting,
These wounds they cut so deep,
Can't seem to fight the feelings,
I cry myself to sleep. I'm reaching forward to a better day,
And all the negative inside of me,
There has to be some kind of better way,
Another life is what I go and seek?, 'Cause all we know
Is the pain we feel,
It helps us grow,
Makes this life real,
But deep inside,
Those wounds will heal. Hold your faith,
Hold your faith...
'Til it's right,
'Til it's right... So you're saved,
So you're saved... In my light,
In my light... Hold your faith 'til it's right,
So you're saved? in the light,
But our hands we creep?,
All your scars disappear, Hold... Cause all we know
Is the pain we feel,
It helps us grow,
Makes this life real, Then there comes a time,
To break the seal, Cause deep inside,
Those wounds will heal, Deep inside all those wounds will heal, All those wounds will heal... All of your wounds
will heal... All of your wounds will heal...
