Bitch

Thai

I'm a real bitch
I'm a twisted witch
I'll screw you around
When you're feeling down
I wonder around with my nose in the air
I bug all these losers but I don't care
They might think they're better than me
But I'm gonna make them history
I've been around, I've done all I can
I'll mess you a bud, I'll even steal your man
I've tried to hard, been pushed too long
Gonna put all you man where you belong
