hot summer

Hank Harry

No, no, no, no, no, no, no
In life I've seen there's only
A couple of people that are real
An' in life I've seen when trouble comes
There's only couple on the scene
So I decided to write this song
Me and my homies we gotta let you know
That you ain't alone
You gotta keep your wishful thinking
Gonna be real hot summer
Streets on fire
Gotta get it on tonight
Gonna be a whole lotta laughter
No more disaster
If we get it on tonight
Hold it down my jiggaz
If you're getting figures
Let's get it on tonight
It's gonna be a real hot summer
Keep it together
Let's get it on tonight
In life I've seen a million pounds
With stress I didn't need
In life I've seen chasing doe can put you
In places you never dreamed of
So I decided to write this song
Me and my homies we gotta let you know
That you ain't alone
You gotta keep your wishful thinking
Oh, let it be, champagne popping
As the beats keep dropping
All heads are bopping
Oh, let it be, sunshine skies
Drop top rides
All the girls looking fly
Oh, let it be, family tight
Mum and dad living life
All my friends doing fine
Oh, let it be, let it be, let it be

Gonna be real hot summer
Streets on fire
Gotta get it on tonight
Gonna be a whole lotta laughter
No more disaster
If we get it on tonight
Hold it down my jiggaz
If you're getting figures
Let's get it on tonight
Gonna be a real hot summer
Keep it together
Let's get it on tonight
If you're doing nine to five to stay alive
I see you
Hustling to keep the cream
I hear you
Shaking it to rake it in
I'm with you
This is your year, baby
If you're doing nine to five to stay alive
I see you
Hustling to keep the cream
I hear you
Shaking it to rake it in
I'm with you
Make it your year, baby
Gonna be real hot summer
Streets on fire
Gotta get it on tonight
Gonna be a whole lotta laughter
No more disaster
If we get it on tonight
Hold it down my jiggaz
If you're getting figures
Let's get it on tonight
Gonna be a real hot summer
Keep it together
Let's get it on tonight
Oh, oh, oh
Let's get along tonight
Gonna be real hot summer
Streets on fire
Gotta get it on tonight
Gonna be a whole lotta laughter
No more disaster

If we get it on tonight
Hold it down my jiggaz
If you're getting figures
Let's get it on tonight
Gonna be a real hot summer
Keep it together
Let's get it on tonight
