Lonesome

Brady Allen

in here before
windows and stone
through the pane
and longing for sure
my lover has gone
this is her song
oh lonesome don't make this your home

wrestle with news
law for the view
despective
on what we've been thorugh
right or wrong
this is her song
oh lonesome don't make here your home

I gave you away
resurrection day
the future not found it in you
right or wrong this is her song
oh lonesome this is not your home
