Dementia

Nebular Spool

(dementia youre driving me crazy, this is driving me crazy, dementia dementia)

Every light in the night flicker in and out
Every bone in my back shiver up and down
Keep the pace just in case all the magic dies
'Cause this is driving me crazy
Every voice in my head shouted 'yes' and 'no'
Every freight train of thought fought to stop and go
Keep the pace just in case all the magic dies
'Cause this is driving me crazy
Big surprise, I'm a ghost keeping out of sight
Rub your eyes, you're a star in the summer night
This is love, this is war, it's insanity
Dementia, you're driving me crazy
Dementia, Dementia, you're driving me crazy
This is driving me crazy
Every tear in my eyes dripped and wouldn't drop
Every disk in my spine shook and couldn't stop
Keep the pace just in case all the magic dies
'Cause this is driving me crazy
Every hand let me go that I tried to hold
Every warm-hearted love left me freezing cold

Keep the pace just in case all the magic dies
'Cause this is driving me crazy
Big surprise, I'm a ghost keeping out of sight
Rub your eyes, you're a star in the summer night
This is love, this is war, it's insanity
Dementia, you're driving me crazy
(Dementia, you're driving me crazy) (x2)
This is driving me crazy
Driving me crazy
'Cause this is driving me crazy
Dementia
Big surprise, I'm a ghost keeping out of sight
Rub your eyes, you're a star in the summer night
This is love, this is war, it's insanity
Dementia, dementia
Through the skies you're in love at the speed of light

So realize this chaos in the air tonight
This is love, this is war, this is pure insanity
Dementia, you're driving me crazy
This is driving me crazy
Oh, dementia, you're driving me crazy
'Cause this is driving me crazy
Dementia, you're driving me crazy
