Electric

Natasha Thomas

you see the way my body moves
(boy your petrified)
really taking over you
(you've been electrified)
shock sent through your veins
a feeling that you can't explaincan't you tell it's getting hot
it's magnetic, got you locked
now it's started, there's no stop
I'm gonna hit you boy with all i gotelectric, 10 thousand - volts
kicking into over drive
got my head down to my toes
I'm feeling so alive(I'm so) electric, haha electric haha,
I'm so electric haha, electric haaaa bird upon a power line
(you got a hold on me)
you come to me so now your mine
(don't get to close to me)
you know I'm burning hot like a blue flame
a current that i can't containcan't you tell it's getting hot
it's magnetic, got you locked
now it's started, there's no stop
I'm gonna hit you boy with all i gotelectric, 10 thousand - volts
kicking into over drive
got my head down to my toes
I'm feeling so alive(I'm so) electric, haha electric haha,
I'm so electric haha, electric haaaelectric, 10 thousand - volts
kicking into over drive
got my head down to my toes
I'm feeling so alive(I'm so) electric, haha electric haha,
I'm so electric haha, electric haaa
