Dig Two Graves

Randy Travis

I promised to, on the day we wed
Till death do us part, yeah, that was what I said
But things have changed since I made that vow
The love I felt for you is so much deeper now
So I've made up my mindWhen the family sings sweet bye and bye
They might as well go on and tell us both goodbye
'Cause you've come to be my heart and soul
The air I breathe, the reason there's live in these bones
So I've made up my mind, girl, if it's your timeThey can dig two graves, just carve one stone
'Cause without you here I won't last long
Your love's the blood running through these veins
So if He calls you home, they can dig two gravesSurely the good Lord won't ask me to be that strong
'Cause it kills me just to think about you being goneThey can dig two graves, just carve one stone
'Cause without you here I won't last long
Your love's the blood running through these veins
So if He calls you home, they can dig two gravesTell the Lord above, no need to wait
So if He calls you home, they can dig two graves
