Come On

Two Tongues

We're in your bed, we're on the floor
Sold my soul for just one more
I reach to touch, your broken hips
I pull you in, close as I kissCome on, come on
Get up, get up, get up
I won't let you down again
Come on, come on
Get up, get up, get up
I won't let you down againYou make me pay every time
Is this love an endless crime?
I feel you here deep inside
You make me feel aliveCome on, come on
Get up, get up, get up
I won't let you down again
Come on, come on
Get up, get up, get up
I won't let you down againLove, love, love
Again, again, againCome on, come on
Get up, get up, get up
I won't let you down again
Come on, come on
Get up, get up, get up
I won't let you down again
