Miss You Gone

Lit

i told you not to call me
Your voice it won't control me
I try to drink you away
But you're always hanging me over
I knew you'd try to find me
I really wasn't hiding
You've got my back to the wall
You whisper over my shoulder
I know what you like
I love it when you're leavin'
I can't hear you screamin'
Something must be wrong
Cuz I miss you gone
Yeah I love the goodbyes
Right before the sunrise
Knew it all along
Now that you're here
I miss you gone
We probably shouldn't do this
We've got the scars to prove it
I see the look in your eyes
You know that I can't refuse it
You've got a one track mind
You've got me losing me
You follow me to my car
You tell me over and over
I know what you like
I love it when you're leavin'
I can't hear you screamin'
Something must be wrong
Cuz I miss you gone
Yeah I love the goodbyes
Right before the sunrise
Knew it all along
Now that you're here
I miss you gone
I know what you like
I love it when you're leavin'
I can't hear you screamin'

Something must be wrong
Cuz I miss you gone
Yeah I love the goodbyes
Right before the sunrise
Knew it all along
Now that you're here
I miss you gone
