do what you want

Nasty Facts

Be a sinner or a saint
Take the beauty over brains
On your Malcolm, draw the X's on the eyes
Fill it in or leave it blank
Be the hero or the crank
Undercover with a secret alibi
Do what you want
Just say so
Open up your mind
Doesn't matter at all
Oh, oh, oh, oh
No one's gonna care nothing
So ready or not
Here we come
Walk into the night
Doesn't matter at all
Oh, oh, oh, oh
No one's gonna care if we disappear
On your knees or on your back
Oversee Johnny attack
I'm forever like I'm done plenty time
Laugh your fingers in your fist
Twist your lips into a kiss
Cross your heart, go into the open wild
Do what you want
Just say so
Open up your mind
Doesn't matter at all
Oh, oh, oh, oh
No one's gonna care nothing
So ready or not
Here we come
Walk into the night
Doesn't matter at all
Oh, oh, oh, oh
No one's gonna care if we disappear
And where we're going is so far away
And there I sigh
I know together we could find a place

That's where we are just who we are
So do what you want
Just say so
Open up your mind
Doesn't matter at all
Oh, oh, oh, oh
No one's gonna care at all
So ready or not
Here we come
Walk into the night
Doesn't matter at all
Oh, oh, oh, oh
No one's gonna care if we disappear
