Daz, Kurupt
Yo man, I dont think they heard you
Wont ya tell 'em what your name is? Dr. Dre
Daz, KuruptAight everybody get on the ground right now
Yeah, this is not your money
This is insured by the federal government
So this is not your money, dont moveDont be a hero, and you wont get blown
The fuck up right now
Yeah, aight yall we got three minutes
Startin' now lets keep it rollin'Hit the bank from the back
Double the trouble, forcin' my entry
The first nigga that I saw, shot him in the jaw
Xzibit started stompin' him and so did we
(Get down bitch)Aww shit, about time we started dumpin' on security
High society, takin' whats mine
Snatchin' each purse after purse for every nickel and dime
Premeditated created by the scorn and the hateBut I made ma, the big time, lights and the shine
Its a full scale war, everybody bear arms
Wear body armor, national armsDip away to get away, sirens alarms screamin'
Yellin' out, hell demons of war
Hell hounds that surround the wells Fargo browns
No tomorrow, hollow, harness roundsTake a sip of your Perrier
To pay, Ima dump like a dump truck, scramble to make my escape
Dat nigga Daz, shootin' so nothin' else come in
Im shootin' in the opposite direction, we closed in
Shells spread nigga because we can do the workFirst things first like snoop, Ima shoot the clerk
And I did, now its time to split get nigga get
(Lets go)
Dumpin' and shoot the hostages
Soopaflly outside in the ride
'Bout to start shootin' everything that he see outsideLoose cannons, face covered with bandannas
Chrome pieces, mother fuck the police

Its everybody killers on mine
If I ever get caught for crime, wont be doin' federal time
Loose cannons, face covered with bandannas
Chrome pieces, mother fuck the police
Its everybody killers on mine
If I ever get caught for crime, wont be doin' federal time
