Dance

Natas

(You ever dance with the devil in the pale moonlight) 2x
Let me start my flow 1992 stuck in ya mind like crazy glue
Esham's back once more for you brand new rhyme brand new crew
My name's Esham the Unholy you can't stop me you can't hold me
Back so watch your step cause some might sleep and some have slept on me
But now they die don't know why nowhere to run nowhere to hide
I'm a suicidal suicidalist now I'm pissed
Get off my dick and let me hold it wait a minute
The black devil ain't jokin' jack I ain't Toby you're a tokin black
But it's alright I'm gettin uptight drop dead dance with the devil in the moonlight
Hook: (I can make you dance if you want me to) 2x
(Wind up lookin at a ziploc) 4x
Now some say I'm a witch ain't that a bitch
When our crackheads be pro dead redrum rum rum red still keep hearing these voices in my head
Am I dead or alive niggas be out to get me wanna get wit me
Bring it on bring it on I got sticks and stones to break up yo bones
Wanna dance wit a madman got stuck in the neck wit a shank too bad man
Helter Skelter when I start dancin run for shelter
I got a routine let me get my car beam I don't swing I got a M-16
Show me that asshole and watch me plug it
Fuck around and catch 30 bullets in your nugget
Wanna get down then come around and you can dance with the devil in the moonlight
Hook
I've been doin' that acid some muthafuckas gonna get they funky ass kicked
Now I'm high I wanna go kill myself don't know why
I'm finna go and slit my wrist it went a little somethin like this
Went to the bathroom turned on the water sat on my toilet stool
First I gotta kill my people shot my father in the temple
Stuck my mother wit a butcher knife now its time to take my own life
Wit all my might I keep dancin with the devil in the moonlight
Hook
