Are You Happy?

Instruction

Are you happy? Are you happy now?
Poised for branding, too weak to know your faultsTell me when your wishes fall apart, do you turn to nothin'
Tell me why I wait to play the part, c'monI did my best to fall apart and take you all with me
To say the utmost from my heart than beg you all to stay
I did my best to fall apart, please take it
Are you happy? C'mon and tell me now
So proud you're standing, too weak to know you're goneTell me when your wishes fall apart do you turn to nothing
Tell me why you wait so long to start, c'monI did my best to fall apart and take you all with me
To say the utmost from my heart than beg you all to stay
I did my best to fall apart, please take it all, please take it all awayI said I don't like the way you say
"I can't believe I had my day and I should go away"
Well not todayI did my best to fall apart and take you all with me
To say the utmost from my heart than beg you all to stay
I did my best to fall apart, please take it all
Are you happy? Are you happy now?
Are you happy? Are you happy now?
Are you?
