

# She Came Home For Christmas

## Mew

Don't touch her there, she's blindfolded  
She remembers on the bus  
Into my heart, don't remember  
Like you left us without notice  
Now you've come back, like you left us  
Like you owe us into my heart  
It's not me, it can't be  
It's not you, I can't do  
What I do if it's you  
This is not happening  
Don't touch her there, she told me  
She remembers how it felt  
Into my heart, don't remember  
Like you left us, without notice  
It's not me, it can't be  
It's not you, I can't do  
What I do if it's you  
This is not happening  
It's not me, it can't be  
It's not you, I can't do  
What I do if it's you  
This is not happening  
Come home, come home  
It's not me, it can't be  
It's not you, I can't do  
What I do if it's you  
This is not happening  
It's not me, it can't be  
It's not you, I can't do  
What I do if we're through  
This is not happening  
Don't touch her there, he watched her  
She knew his look from behind  
When she came home for Christmas
