Goodnight

Egypt Central

A light comes through the glass
And shines in on the past
The day you left too fast
The day I saw you last
A faded photograph
The time we thought we had
And I just want you back
Goodnight, goodnight
This pain won't last forever
I'll bury this, burt this inside
Please don't say goodbye
Goodnight, goodnight
It doesn't mean forever
I'll bury this, bury this inside
Its my last kiss goodnight
Your there in black and gray
Your always in the frame
It's like you always say
Things never stay the same
A faded photograph
The time we thought we had
And I just want you back
Goodnight, goodnight

This pain won't last forever
I'll bury this, burt this inside
Please don't say goodbye
Goodnight, goodnight
It doesn't mean forever
I'll bury this, bury this inside
Its my last kiss goodnight
If I could go back in time
If I could take back words
I swear I could save your life
No one knows how bad this hurts
Taken too soon
You know I lost the best in me
To go on without you
I lay you down to sleep

Goodnight, goodnight
This pain won't last forever
I'll bury this, burt this inside
Please don't say goodbye
Goodnight, goodnight
It doesn't mean forever
I'll bury this, bury this inside
Its my last kiss goodnight
