

Believe (Kyle Burns Remix)

Burn The Ballroom

I

I found myself a way

I found myself a light a bright and brilliant flameI

I found myself a song

No matter what this road my soul stays strongAnd I will fight through rebel days and darkest nights

And I will soldier through the rainAnd as long as I still stand

And as long as I still breathe

I'll keep on strong I'll carry on

Tonight we all believeI

I found myself the grace

To fight the fears I face no matter come what mayAnd I will find through rebel days and darkest nights

That I can soldier through the rainAnd as long as I still stand

And as long as I still breathe

I'll keep on strong I'll carry on

Tonight we all believeAnd as long as I still stand

And as long as I still breathe

I'll keep on strong I'll carry on

Tonight we all believe...
