Started from the end
The worst is the best thing that, I ever knew
Moses is my friend
Since, Im playing second fiddle in the duet
Paying for what I am regrettingSometimes you get what you want, sometimes you get what you need
But youre always going to get what you deserve
Its all about what you want, if you can get what you need
Youre always going to get whatElvis isnt dead
Hes just on vacation with Jim Morrison
Sold my soul again
While I was whistling Dixie in a panic
Beelzebub was clapping franticallySometimes you get what you want, sometimes you get what you need
But youre always going to get what you deserve
Its all about what you want, if you can get what you need
Youre always going to get whatSometimes you get what you want, sometimes you get what you need
But youre always going to get what you deserve
Its all about what you want, if you can get what you need
Youre always going to get whatSometimes you get what you want, sometimes you get what you need
But youre always going to get what you deserve
Its all about what you want, if you can get what you need
Youre always going to get what you deserveSometimes you get what you want
Sometimes you get what you need
But youre always going to get what you deserveYoure always going to get what
