Nobody

Jukebox the Ghost

I've never known why
It's a crime to say we're not fine
But I've never been quite alright
Though I will admit the time
This time is on my sideThen we think to start it
Let's go home to where the heart isSo when you feel left out
Oh, go have a shout to nobody
'Cause you got nobody at all
While, while I'm locked out
Oh, I'll have a shout to nobody
'Cause you got nobody at all, I'm singingI know that I might be to blame
For the pain you've been in
And the strange rules of this game
But I'll try not to be martyr
But I feel that sometime soon
Something big is gonna changeWe think to start it
Let's go home to where the heart isSo when you feel left out
Oh, go have a shout to nobody
'Cause you got nobody at all
While, while I'm locked out
Oh, I'll have a shout to nobody
'Cause I got nobody at all, I'm singingSo while you call me home
Oh, you've got a place for your body
When you've got nobody at all
While, while you're up in the clouds
Don't you feel like you've left your body
'Cause you've got nobody at allAnd so while you call me home
Oh, you've got a place for your body
When you've got nobody at all
While, while you call me home
Oh, you've got a place for your body
When you've got nobody at all, I'm singing
